MADISON, MARKET AND MONROE STREETS
CHICAGO, ILLINOIS

"Base of Supplies"

FOR many years the trade has found Lyon Brothers a never-failing "Base of Supplies" for reliable Fireworks and 4th of July Goods. We still handle the famous "Garden City" Brand because they are positively the best made, and **our**

prices for 1903 on these fine quality goods are the **lowest quoted**. The trade can find no greater values in Fireworks and 4th of July Goods than we are offering this season. If you would make a **large margin of profit** and sell Fireworks that will give **absolute satisfaction** to your customers **order the "Garden City" Brand from us**. Our line is **the largest** and we have an **immense stock**. Merchants can positively rely on having their orders filled complete and with the greatest possible promptness.

LYON BROTHERS

TERMS: 2 per cent for Cash

OR NET 40 DAYS

To Merchants with an established Credit standing, or who have a satisfactory rating in the commercial agencies, and can furnish satisfactory references, we will ship goods on above credit terms.

Suggestion A suggestion to Merchants when applying to us for credit if application is accompanied by an order. In determining the responsibility of an applicant it requires several days to investigate and get reports. It is impossible for us to pass upon applications the day received, therefore we would advise that instructions to draw for amount or cash accompany first order, so that we can ship promptly, and in the meantime we can determine upon the credit application. **This suggestion is for parties who are in a hurry for goods, and not for merchants who will not be inconvenienced by the delay.** Consider this when placing your first order with us.

Remittances All remittances must be made direct to the firm, in Chicago or New York Exchange, Express or Postoffice Money Order, payable to LYON BROTHERS. We will not be responsible for currency sent by mail.

C. O. D. Shipments Two per cent discount will be deducted from face of bill on all C. O. D. shipments.

We require from those not regularly and permanently established in business a deposit with C. O. D. orders, as good faith and to secure us against loss if goods are not taken. We cannot make C. O. D. shipments to "prepaid" stations (stations where there is no agent); when shipment is required to such places the full amount of order and transportation charges should be remitted except WHEN GOODS ARE SHIPPED ON CREDIT.

We ship C. O. D. by freight, consigned "order of Lyon Brothers" and draw with bill of lading attached through the bank at point of shipment. If there is no bank there, we send the bill of lading by express or to the nearest banking town. On payment of draft the bank will deliver the bill of lading indorsed to you. Upon presenting that document to the railroad agent the goods will be delivered.

Correspondence Correspondence Should be Written on a Separate Sheet of Paper, and if it refers to a previous order our order number must be mentioned.

GUARANTEE—We Guarantee all Our Goods as Represented.

BUY "GARDEN CITY"

THEY ARE THE BEST

Our Prices are the Lowest—Unequaled for Brilliancy and Colors.

How to order Fireworks

We ship Fireworks direct from our magazine only. This is located in a different part of the city from our mammoth establishment,

therefore, be sure to always make out your orders for Fireworks on a **separate sheet**. They can only be sent as a separate shipment. The goods on pages 1, 2, 3, 4 and 5 can not under any circumstances be shipped with a miscellaneous merchandise order, **but only alone or with the 4th of July goods** listed on pages 6 and 7. From the fact that we are quoting such extremely low prices, all orders which are shipped from our magazine, as explained above, **must amount to \$10.00 or more**. If merchants will make it a point to follow these simple instructions, we guarantee the quickest and most satisfactory service possible. **Do not delay your orders—the time is short.**

GUNPOWDER CRACKERS.

(Made in America.)

We offer you this season an entire new line of powder crackers, handsomely finished and loud in report (no sissers). The cracker is far superior to the Chinese, and being charged with powder, the laws which prohibit the sale of high explosive crackers in many cities do not apply to these crackers. Prices being much lower than the imported article, also superior in report and finish, there will be a big demand for them.

For the Spring and Summer season of 1903, we are showing the most complete lines of Novelty, Japanese, Feather and Fabric Fans.

FABRIC FANS—are covered in gauze, fanmakers' taffeta, silesias and transparent silk chiffons. The decorations are in patterns and effects which are all new for this year.

JAPANESE FANS.—We are showing a select line of Japanese Fans in assorted colors, also white and black. They are covered with the very finest grades of fanmakers' fabrics and mounted on strong, plain and fancy ribs. The bodies are decorated in all new patterns and combination floral groupings which are new for this season.

FEATHER FANS.—A special feature is our line of Feather Fans, which are the most popular price high-class fans to be had.

NOVELTY FANS.—The Cigar Fan and Bouquet Fan novelties are gaining in popularity each year. They are popular for picnics, fairs and all out-door demonstrations.

PALM LEAF FANS.—Our quotations on Palm Leaf Fans are always the lowest. We import them direct in enormous quantities, and aside from the fact that the quality runs uniform, we guarantee our prices to be lower than others.

27072 "REPOSO." The patented Reposo, construction as illustrated above, marks a new era in the manufacturing of hammocks. Where hammocks are used in place of beds, it is the custom to use the very wide hammock and lie either diagonally or directly across, as such a position gives the utmost comfort, eliminating any painfulness occasioned by the elevation of the lower limbs in the regular hammocks. Many users of hammocks assume the diagonal position in an unconscious search for ease. The patented Reposo is constructed, as regards widths and arrangements of pillows, so as to make it natural to assume this diagonal position.

Size of woven part 60x84 inches, full color, concealed folding spreader at head, wood bars at both ends, wide valances and upholstered pillows. The folding spreader allows the hammock to be folded into a compact package. Each.....3 50

NOTE REDUCTION IN PRICES OF TENTS

WE are in a position to furnish Tents of all descriptions, in large and small quantities, on short notice. All our tents are the best quality. They are all full size and all have a good "pitch" roof to turn rain, and are all made in a durable, substantial manner. All our tents are made of 23-inch duck. The ounce given is the weight per ounce in length, and our goods are not to be confounded with the cheaper grades, which are made of 36 and 40-inch duck, which weighs the same per yard in length, consequently is very poor material from which to make tents. We cannot send tents C. O. D., as they have to be made to order, and for that reason cannot be returned or exchanged. We warrant them to be exactly as represented. When ordering give catalogue number, length and breadth, weight of canvas and price. We can make to order all kinds of tents, canopies, etc. Write for quotations.

"A" OR WEDGE TENTS.

Where higher wall is wanted add 5 per cent for each 6 inches in extra height of wall.

Poles and pins included in above prices. Prices on any size of wall tent not mentioned above, given on application. Can furnish any style of tent wanted.

A tent fly makes an extra movable or double roof to a tent, and affords a greater protection from sun and rain, and can be made to serve as an awning, either in front or rear of tent. They are not really necessary, and are not included in prices of tents, but we can furnish them if ordered, at one-half the price of tents of corresponding size and quality.

"Charlton" Hardwood Refrigerators

GENERAL DESCRIPTION.

THE prominent features and the construction of our refrigerators are: Hand carved panels and moldings, made of thoroughly seasoned ash, antique finish, fancy overlapping doors, special door clamp for double doors, inodorous charcoal sheathing, genuine solid bronze locks and hinges, best steel spring self-retaining casters, full zinc-lined, metallic shelves, no inside wood exposed, removable galvanized ice rack, removable waste pipe with automatic trap. Refrigerators furnished with porcelain-lined water coolers, solid brass faucets and fancy cup holders, swinging baseboard making removal of drip pan convenient.

CONSTRUCTION—This refrigerator is made from thoroughly seasoned ash lumber, possessing the beautiful grain for which Wisconsin hardwood is so celebrated. All goods are in an antique finish, with best filler, shellac and coach varnish. Only the best bronze hinges and locks are used with the best steel spring self-retaining casters. To further contribute to securing favorable results, this refrigerator is constructed so as to consist of six walls, viz.: 1—Outside case of hardwood panel work. 2—A wall of charcoal sheathing. 3—A dead-air space. 4. A second wall of charcoal sheathing. 5—A wall of matched lumber. 6—A wall of zinc.

LAWN MOWER.

Manchester Lawn Mower. This mower is made of the very best material throughout. The tie rod and reel shaft are made from solid steel, and reel and bed knives from special lawn mower steel. The reel shaft is set well forward, enabling the operator to cut close to a tree or bush. The reel shaft box is fitted with split metal bushings and is so constructed that grass will not wind around reel. All parts of this machine are turned and accurately fitted, and the pivoted bed knife makes it very easily adjusted. It is interchangeable throughout, and all gearing is encased to prevent dirt entering and interfering with the perfect working of the machine.

GASOLINE STOVES

With Stationary Tanks and Individual Burners

THIS new line of America Cabinet Frame Gasoline Stoves presents a number of advantageous features that combine to make these stoves the best sellers on the market. They are simple and effective in operation and positively safe. The burners have 3/8-inch iron standpipes, brass angles, cast iron drill cones and cleaning needle with brass check-nut. Full cabinet frames with end panels in one piece. Made with brace running crossways on base, thus securing extra strength and durability. Our prices are low, and dealers will find this a money-making line to handle.

Globe Wickless, Blueflame Oilstoves—Cabinet Design

THE best oil stove of its kind on the market. It combines extreme simplicity with effectiveness in operation and is a most satisfactory stove at a low price. Our Globe oilstove has no wick. An asbestos kindler is used for starting, but when hot has no capillary power and none of the functions of a wick. Can be lighted quickly, and is operated and controlled by a cut-off.

The Burner gives an intensely hot blueflame and consists of chimney, bowl and cut-off.

The Cabinet is made so that while the burners are completely enclosed by it, the tray for catching any greasy drippings, etc., from the cooking, is exposed for easy cleaning. The oil supply pipe is also outside the Cabinet and kept cool by the air passing around it.

PEANUT VENDING MACHINES.

The Perfection Peanut Vending Machine. The only sanitary coin operating machine. The latest production and a mechanical wonder. An ideal salesman. A big money maker is slugproof, waterproof, dustproof, rustproof, sanitary, artistic, non-chokable and we believe is as near what its name implies as is possible to produce. The parts are all interchangeable. The waterproof feature is entirely new in peanut vending machines, and is of inestimable value. Dust is excluded by the same means as the water or moisture. The all metal and glass case is a special feature of the Perfection, and they are the only case materials that will successfully stand all kinds of weather, and the hot rays of a midsummer's sun. The square drum that forms the body of the machine is of sheet steel, the balance of fine gray iron, and is finished in black enamel, ornamented with Decalcomania transfers, bronze striping and nickel-plated handles and escutcheons, and is by far the most artistic in appearance of any peanut machine on the market. The display case is of very heavy crystal glass in the form of a cylinder, and a special feature of advantage is the absence of large upright posts, such as are used in other machines. Two locks, one for the cash, the other for the nuts, is a convenience and advantage appreciated by all who operate on a large scale. The height is 22 inches, width of base 8 inches, capacity of reservoir about six pounds, weight 19 pounds, weight boxed for shipment about 30 pounds. The Perfection peanut vending machine complete, boxed, ready for shipment with artistic stand (peanuts not included)..... 12 00

(Without stand 50 cents less.)

The Perfection Jr. coin operating peanut vending machine. Slugproof, rustproof, waterproof, dustproof, sanitary, artistic and non-chokable. An ideal salesman, a big money maker and a mechanical wonder. All of the working parts are exactly the same as are used in our regular Perfection, the only difference being that the Perfection Jr. has a case of polished and highly finished oak wood, which is very strong and artistic. It has two locks, one for the cash and the other for the peanuts. A very ingenious arrangement permits the replacing of a glass, should one become accidentally broken, without the use of putty or cement. Height 21 inches, width 8 inches, weight about 10 pounds. The Perfection Jr. peanut vending machine, boxed, with stand (peanuts not included)..... 8 50
